This amendment does not increase or decrease state revenues. The state revenue restricted to the purposes specified in the amendment is estimated to be $648 million in Fiscal Year 2015-16 and grows to $1.268 billion by the twentieth year. Whether this results in any additional state expenditures depends upon future legislative actions and cannot be determined. Similarly, the impact on local government revenues, if any, cannot be determined. No additional local government costs are expected.
NO. 2
CONSTITUTIONAL AMENDMENT
ARTICLE X, SECTION 29
Use of Marijuana for Certain Medical Conditions
Allows the medical use of marijuana for individuals with debilitating diseases as determined by a licensed Florida physician. Allows caregivers to assist patients’ medical use of marijuana. The Department of Health shall register and regulate centers that produce and distribute marijuana for medical purposes and shall issue identification cards to patients and caregivers. Applies only to Florida law. Does not authorize violations of federal law or any non-medical use, possession or production of marijuana.

Increased costs from this amendment to state and local governments cannot be determined. There will be additional regulatory and enforcement activities associated with the production and sale of medical marijuana. Fees will offset at least a portion of the regulatory costs. While sales tax may apply to purchases, changes in revenue cannot reasonably be determined since the extent to which medical marijuana will be exempt from taxation is unclear without legislative or state administrative action.

Currently, the Governor may not fill an expected vacancy until the current justice’s or judge’s term expires.
