

AUDIO INSTRUCTIONS (USE HEADSET)

MANAGER INSTRUCTIONS:

1. Take AVS ballot card with barcode printed on top, to the AVS unit.
2. Insert ballot card into front card slot (Ensure cut corner of ballot card is facing right).
3. Press “**Select**” on Voter Interface Keypad.
4. Touch “**Continue**” on Assisted Voting screen to enable audio assistance.
5. Give Voter the headset with ear covers and assist if needed using the other headset.
6. On **Select a Language** screen, confirm preferred language with Voter and touch English or Español then touch “**Next.**” If you touch the wrong language, touch the “**Back**” button.
7. Hand **Voter Interface Keypad** to voter and the system will explain use of buttons.

WARNING

Once you touch “Start Voting,” you cannot change your selection and must move the voter to a different AVS to allow AVS to be completely turned off and back on.

8. Review the Instructions with the Voter, then Touch “**Start Voting.**”
9. Give Voter privacy but remain nearby in case they need further assistance.
10. After Voter is finished voting, direct Voter to Ballot Counting System to cast their ballot.
